AquaLux 105 SV-AQL105

Mini SubSea Light > 200m, with dimmable LED option

AquaLux 105 is the latest generation compact miniature Subsea LED from SeaVision, featuring light dimming capability. The quality and performance is very high despite the compact size.

It is intended for use in harsh environment, rated for use down to 200m water depth with a LED life time expectancy of >10.000 hours.

The new LED has a cylindrical tapered shape with a total length is 130mm including the subsea connector. Outside diameter is 47mm. The weight is 210 grams in free air for the POM-version

The customer can choose between different cable type and length together with fixed subsea connector SV-AQL105-C or PG cable gland SV-AQL105-PG

Not to be used in free air for more than 15 min!
